BILLINGS – Rocky Mountain College will present multimedia collaboration April 29, 2009, at 7 p.m., in Taylor Auditorium of Losekamp Hall.

The event, featuring RMC Professors of Music Sam Hamm and Jennifer Bratz, and Joe Decker, a photographer from San Joes, Calif., will involve images in a variety of ways in a composition of music and media called “Signatures of the Sun.”

The lecture-recital will include a roundtable discussion of the work among the collaborators, and with the audience.

The piece premiered April 23 at the University of Colorado.

“This is a unique collaborative venture among nature photography, music composition, and music performance,” said Hamm.
