

Residence Hall Check-Out Guide

The Residence Hall Contract states students must use the established check-out procedures upon termination of their contracts. Students who fail to return their issued key(s) will be charged for the lock change(s). Students who fail to clean and/or cause damage to the room, suite, or apartment and its contents will be charged a fee for RMC personnel to clean and repair the room, suite, or apartment, furnishings and equipment. Students who fail to properly check-out of their assigned space by the established hall closing date and time will be charged an improper check-out fee of \$150. Students are responsible for providing their own cleaning materials. Please use the list below as a guide for a successful proper check-out of your residence hall room.

1. Remove all personal belongings from the building (don't forget anything you may have in shared community spaces).
2. Properly arrange furniture using the established room layout map for your assigned room.
3. Thoroughly clean your assigned space – the entire space must be cleaned before you can be checked-out even if you have a roommate still there.
4. Clean and return all issued keys to the Office of Residence Life key drop box located in the Bair Family Student Center.
