

March 31, 2020

Dear Colleagues,

As always, we hope you are all safe and healthy. We have a few reminders and announcements:

REMINDERS

- If you have questions for administrative consideration, please send them to your division head or clinical program director by the end of the day (or evening) today;
- Please be as proactive as possible in reaching out to students for advising and registration (see March 30th Update).

ANNOUNCEMENTS

- FXC met yesterday and it was the general consensus that all non-essential committee work (and no essential work was immediately identified) be suspended for the remainder of the semester; however,
- It was also decided that we hold a non-business faculty meeting toward the end of next week (after we have had a chance to respond to and distribute responses to your questions and concerns, as per the reminder above). We will have further information on this by the end of the day Monday;
- Summer School is still going forward, though we should make plans for online delivery. If you have questions about the schedule please contact the registrar's office;
- I am sure you have availed yourselves of the considerable support resources out there for this rapid shift to online delivery, but I refer you to an upcoming very comprehensive webinar series sponsored by leading non-profit academic organizations: <https://us12.campaign-archive.com/?e=%5bUNIQID%5d&u=6540ba10fb2e6fa4fec0ba724&id=7ceb0a49f5>

Thank you all and be well,

Steve
